

ALCHEWAT AGRO

STRUCTURED, RENATURED AND REVITALIZED WATER FOR FARMS AND AGRICULTURAL COMPANIES

Water is more than just the chemical formula H_2O – it is the basis of all life. For billions of years, it has circulated across our planet in a fascinating cycle without being consumed or significantly replenished.

With **ALCHEWAT AGRO**, an innovative **technological process for water structuring**, your irrigation water regains its original, natural, and vibrant quality. This device is far more than a limescale converter – it makes water effective: It **transforms ordinary water into a biostimulant** that has been proven to promote plant growth and vitality.

The device uses **biomagnetic induction processes** and specially developed **transmaterial catalysts** to transfer a structured information pattern to the flowing water. This process alters the **molecular behavior of the water**, making it qualitatively similar to that of pure, natural spring water.

The structured water acts as a **natural biostimulant** – a plant-promoting substance that significantly improves root growth, flowering time, and overall plant vitality.

ALCHEWAT

ALCHEWAT AGRO

ACTIVATED AGRICULTURE

Our technology aims to **stimulate biological growth and metabolic processes** in agriculture and horticulture. **ALCHEWAT AGRO** represents a modern, nature-based approach to crop production: higher yields, higher quality – with fewer artificial aids.

ALCHEWAT AGRO – Transform water into a natural growth accelerator. For strong, healthy, and sustainable agriculture.

TREATS LIMESCALE AND
REVITALIZES WATER

CAN BE USED FOR FRUIT
AND VEGETABLES,
HORTICULTURE, TREE
CROPS, ETC.

1 °C TO 95 °C
(PROTECT FROM FREEZING)

REMOVES EXISTING
LAYERS IN YOUR PIPES

PERMANENT EFFECT

STRUCTURES
OF IRRIGATION WATER

SUSTAINABLE &
MAINTENANCE-FREE

OPERATES WITHOUT
ELECTRICITY, WITHOUT
CHEMICALS, AND WITHOUT
MOVING PARTS. EASY TO
INSTALL AND
MAINTENANCE-FREE
DURING OPERATION.

ALCHEWAT

TECHNICAL DATA

Model	ALCHEWAT Agro 50	ALCHEWAT Agro 200
Application	Horticulture, agriculture, fruit growing and viticulture	
Water temperature	1°C to 95°C (protect from frost)	
Water pipe	Ø max. 2" (50 mm)	Ø max. 8" (200 mm)
Dimensions	Ø 76 mm x 200 mm	Ø 154 mm x 300 mm
Materials and Ingredients	Precision-engineered stainless steel (X5CrNi18-10, X13CrMnMoN18-14-3), high-grade oxygen-free copper (Cu-DHP), crystalline silicon dioxide (SiO ₂), purest alpine spring water from protected high-altitude sources, and energy-active tourmaline mineral granulate.	
Weight	2,5 kg	9,5 kg
Guarantee	10 year guarantee on material and workmanship	
Refund Policy	30 days	

OLD "TECHNOLOGIES" FOUND AGAIN?

In the sea of information in which we are immersed today, there is extraordinary news that unfortunately fades into the background. In 1911 my grandfather started collecting documents, patents, books and documentation on technologies for harmonizing the environment, humans and animals. My father started applying these theories and technologies in agriculture with positive results. In 1984 the third generation of our family began to follow this path and to test the "family technologies" and to develop them further. The various **ALCHEWAT** systems have been manufactured in Bolzano in South Tyrol since 2010. Our technology is based on the studies, theories and techniques of the great geniuses of history:

Ing. Bernard B. Kazhinski (1890-1962)

MD. Alexander G. Gurwitsch (1874-1954)

Ing. Georges Lakhovsky (186 – 1942)

Ing. Nikola Tesla (1856-1943)

Royal R. Rife (1888-1971)

MD. Dmitrij I. Mendelejew (1834-1907)

D. C. Wladimir I. Wernadski (1863-1945)

MD. Vladimir M. Bekhterev 1857-1927)
